

In Williston ND, we receive the K-LOVE broadcast on an FM station. The FCC's proposal to expand the Low Power FM broadcast service could adversely affect our ability to continue receiving the K-LOVE broadcast. K-LOVE is the only radio station I listen to because I can listen to music with lyrics that are not offensive or suggestive and I can listen to messages that encourage responsibility in all aspects of life. The music on K-LOVE does not demean nor debase any segment of society. Rather than promoting hate and immorality, it promotes the values that our country was founded on. I feel the effect of K-LOVE on our community is positive and it gives a positive alternative for the youth of our community. In this age, when some music advocates violence, hate, immorality, suicide, etc., when some DJs' comments are as offensive and crass as some of the music, I feel K-LOVE and stations like K-LOVE have a vital role to play in encouraging our communities to a higher standard. Please do not remove stations like K-LOVE from communities like Williston. Thank you.
